

FCC,

You should reject NAB Petition 04-160.

XM radio's Instant Traffic and Weather is a valuable service I can not get anywhere else. I do have another radio that emits an alarm when there is a tornado warning, but the National Weather Service comes out of Cleveland. I live in a small county (Ottawa) which is not covered well. Often we are having bad storms and there have been no alerts, even though bordering counties are on the warning list. I can rely on XM radio to always have the latest. Please let them keep their coverage

Regards, Nancy
